

ROLLING DOORS • INVISIDOOOR

"...and ourselves your servants for Jesus' sake." II Corinthians 4:5b

You have a knack for creating a perfect space. Sometimes that means simply replacing a broken faucet or repairing a crack in a driveway. Other times, you dream of a modern-looking bathroom, a more efficient way to organize the mess of cookware in the kitchen cabinets, or a better way of accessing the highest shelf of the bookcase or pantry.

For over 40 years, Custom Service Hardware has been helping everyone from DIY-minded homeowners to large cabinet shops realize their visions for their homes and projects. We have poured countless hours into creating the best experience for you—providing a wide variety of hardware options, a robust and comprehensive website, the most competitive pricing on the market, informative video guides, and top notch customer service. We'll not only help you find exactly what you need, but also go above and beyond to answer your questions, give you advice, and help you in any other way possible.

CSH will help you take your vision for any project and make it a reality.

Mike Allen
Mike Allen, CSH President

- We invite you to write or call our president, Mike Allen. If what we do, does not match what we believe, **we will make it right.**

Flat Rail Collection

Made in the USA!

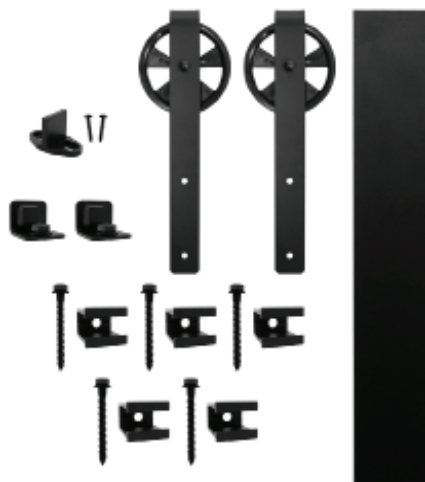

This hardware is Quiet Glide's Premium-quality take on the flat-rail style of rolling barn door hardware. Unlike the competition, we use aluminum rails that are easy to cut to size and give you the ability to drill holes for placing the mounting hardware exactly where you need it.

The minimal contact surface area between the flat rail design and the high-density nylon wheel make for extra quiet operation, and the hardware safely supports a max recommended weight of 250 lbs.

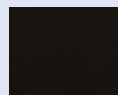

Beautifully traditional yet striking, the simple aesthetics of Quiet Glide's Flat Rail Collection are sure to accent your unique decor!
